

# Mother's

---

## A Mother's Love, Bright & Radiant.

A mothers love is bright and radiant daily, in whom she rises daily for us to rise and come to be

As did she. Mother of Land, Mother of Earth this is why she gives us birth.

Living here now on Mother Earth by which we all claim as Turf....

Thank you Mother's here and everywhere, just as the Sun Rise – So do you Mother's and always keep us Set as the Evening Moon....

Thank you and know that for without Mother's there will be No Us.....
